AL JUBITZ IS INDUCTED INTO THE ARCH C. KLUMPH SOCIETY

On April 22, 2010 Portland Rotarian Albin "Al" Jubitz was inducted into the Arch C. Klumph Society at RI World Headquarters in Evanston for his \$300,000 contribution to fund a Peace Scholar.

Joining Al from District 5100 was DG Kristi, DGE Barb Crozier and PDG Reg Keddie. The Rotary Foundation Trustees were in attendance for the occasion and enjoyed the passionate comments that Al made on achieving Peace in the World. Al encour-

aged the Rotary Foundation Trustees to tackle PEACE and urged Rotarians to end all wars in a generation's time.

To demonstrate the number of nuclear megaton bombs countries have in their arsenals today, Al dropped 1000 bee-bees into a pail. One bee-bee equaled 80 Hiroshima kiloton bombs.

PRIP Glen Estes, DG Kristi, Al Jubitz, RIPE Ray Kliningsmith, PRIP Bill Boyd, DGE Barb Crozier, PDG Reg Keddie and PRIP Wilf Wilkinson.

HELPS BUILD A HOSPITAL IN GUATEMALA

On April 16th, seven East Salem Rotarians departed for a nine day adventure in Guatemala. As part of a partnership with the Oeste Rotary Club in Guatemala City, the team set out to help build a hospital in Santiago Atitlan. This Mayan region, on Lake Atitlan in the southwest portion of Guatemala, lost their hospital three months after it opened in 2003 as the result of a catastrophic landslide. Rotarians and other NGOs from around the world have helped with this

project by donating funds, as well as supplies and equipment. The team from East Salem spent three days at the construction site planting, painting and making the sand for the mortar that will be used in the concrete for the roof of the second floor of the hospital. It is their hope to be able to move the emergency room from a temporary site in the early fall and open a portion of the hospital in November 2010.

From their BLOG on MAY 5, 2010

After a lovely evening overlooking the fjords from a cabin, we spent this morning visiting with the international coordinator and nature management teacher at the Voss Jordbruksskule (Agriculture & Environmental School). The school reminds me of Catlin Gabel - but with an environmental management, farming, and eco-tourism focus. Students are taught farming, horsemanship, nature, and eco-tourism in theory and experiential learning. To serve the tourist market of Voss, the students learn skiing, kayaking, fishing, rafting, hunting, and all of the lost arts like traditional carpentry. The student-teacher ratio is 3-to-1 and the students have exchanges from all over the world. Meghan and Kathy were fascinated to learn about the education and potential for practical application in Portland.
